STAND OUT WITH TROPIC... MAKE A DIFFERENCE IN YOUR SPACE!

Since 2001, when we began our journey, we have redefined traditional concepts of housing, shading, and construction, bringing an exotic flair to spaces across Greece and abroad.

From the very beginning, our mission has been to deliver projects of exceptional design, quality, style, and value – consistently exceeding our clients’ expectations. From our signature Custom Constructions to our Beach & Pool Products, we offer everything you need to create dream spaces and provide your guests with an environment defined by beauty and relaxation.

Now, after years of successful presence and warm customer recognition, this mission inspires us even more, motivating us to keep improving through research, design, manufacturing, and service – with joy and optimism for the future.

Guided by a philosophy of environmental respect, social responsibility, and complete satisfaction for both clients and employees, we remain by your side. Whatever your vision or goals may be, dear friends of Tropic, we are here to help – anytime, anywhere.

GAZEBOS & DAY BEDS

Day Beds are very popular for hotel outdoor areas and beaches, as they enhance the overall experience for guests. They are constructed from European or tropical wood, with airy curtains and quick-dry mattresses in sand-colored tones. Day Beds offer protection from harsh weather conditions, especially strong winds and sunlight, while also providing privacy and a playful, relaxing atmosphere.

Features

- **Comfort:** Soft mattresses or cushions provide a cozy retreat for relaxation.
- **Quality:** Made from high-quality European or tropical wood, combining durability and elegance.
- **Design:** Options for alternative DIAMETER. Roof shading can be made with fade-resistant fabric, cane, or tropical materials, offering protection from the elements while adding style.
- **Customization:** A variety of colors for the wood frame, mattresses, cushions, and curtains to match your personal taste.
- **Convenience:** Optional table between sun loungers for added functionality, ideal for placing drinks, books, or personal items.
- **Easy Assembly:** Ensures a hassle-free installation process.
- **Flat-Pack Packaging:** Ensures low shipping costs.

TROPICAL UMBRELLAS

Tropical Umbrellas – The Perfect Setting for Relaxation and Exotic Style!

Tropical umbrellas create the ultimate atmosphere for total relaxation and a touch of the exotic, making them the most attractive choice for those who wish to enjoy nature in comfort and style.

Features

- **Natural Materials:** Crafted primarily from Makuti, Thatch, and Alang-Alang, tropical umbrellas offer an authentic tropical look that enhances the natural landscape around the beach or pool.
- **Ample Shade:** The natural materials provide rich, pleasant shade, while the design allows airflow, keeping the area cool and comfortable.
- **Weather Resistance:** Tropical materials are exceptionally durable and ideal for coastal areas, withstanding challenging weather conditions.
- **Minimal Maintenance:** The frame, made of galvanized solid shafts, ensures a lifespan of over 20 years with no maintenance required. The thatching can be partially or fully replaced at low cost whenever needed.
- **Storage:** For greater durability and preservation, it is recommended to store umbrellas in a dry, secure place when not in use and clean them regularly from dust and sand.

Call us today and let us design the perfect Tropical Umbrella for your space!

WOODEN SUN LOUNGERS

WOODEN SUN LOUNGERS for Pool & Beach

Wooden sun loungers combine elegance and high durability while offering comfort and style to your space. They are made from high-quality, durable materials and are ideal for use both by the pool and at the beach.

- **High-Quality Materials:** Crafted from selected tropical or European wood. Resistant to moisture and temperature changes, ensuring long-term outdoor use.
- **Appearance:** Every detail in design and finishing is carefully considered to highlight the natural beauty of the wood, adding elegance and luxury to your space.
- **Functionality:** Available in a wide variety of designs and sizes to meet diverse needs and styles, with options to suit the specific requirements of each space.
- **Adjustable Backrest and Wheels:** Backrest can be adjusted from a seated to a fully reclined position. Available with optional wheels for easy mobility.
- **Durability and Easy Maintenance:** Materials are selected for long-lasting performance with minimal maintenance. A transparent varnish (spray) applied approximately every 2 years protects and refreshes the sun lounge. Spare parts are always available.
- **Construction Warranty:** We provide a workmanship guarantee because we believe in our products. Each sun lounge is made from premium materials and carefully inspected for strength, safety, and perfect finish.

Can be combined with
Cushions (pp. 42-49)

BEACH WALKWAYS

Wooden Beach Walkways

Wooden walkways are an essential accessory for your beach. They facilitate access over the hot sand and provide your guests with a high-aesthetic experience.

Features:

- **Durability and Stability:**
Constructed to withstand weather conditions and daily use, offering stability with every step.
- **Natural Aesthetic:**
The wooden walkway blends harmoniously into the coastal environment, enhancing the sense of relaxation and natural beauty.
- **Low Maintenance:**
Made from durable materials that require minimal upkeep, ensuring long-lasting performance with little care.
- **Customizable Installation:**
Available in a variety of DIAMETER and designs, easily adaptable to the needs of your space, providing the flexibility you require.

**DECK BOARDS FROM
IMPREGNATED PINE WOOD**

Material characteristics:

- Made from impregnated pine wood
- Treated with safe wood preservatives
- Eco-friendly impregnation, free from materials toxic to humans
- Double-sided: Comb / Plain

Intended use:

Decks, fences, constructions
Outdoor decoration

**Contact us for available DIAMETER and
installation!**

RAW MATERIALS / DECK

WPC DECK

SKU
1612

The boards are double-sided (installation according to preference), allowing aesthetic customization. Surface options include sparse or dense grooves, or a wood-look finish with visible wood grain in 3D texture. Can be used as flooring or fencing. Contact us for available color and appearance options!

- Features:**
- High durability
 - Anti-slip
 - Abrasion-resistant
 - Fire-resistant
 - Moisture-resistant
 - UV-resistant
 - Thermal insulation (from -40°C to 70°C)

- WPC Specifications**
- 10-year warranty
 - Material composition: 60% wood – 30% HDPE – 10% additives
 - FSC certification for the wood used
 - CE certified
 - UV resistance

- Environmental Characteristics**
- Free from toxic or hazardous substances, preservatives, formaldehyde, benzene
 - Non-polluting to air and environment
 - 100% recyclable

- Appearance and Feel**
- Looks and feels like natural wood
 - Available in a variety of colors
 - Maintenance-free, no painting required
 - Excellent color stability

- Processing Properties**
- Can be processed like wood
 - Can be cut, nailed, or screwed
 - Easy installation

DECK THERMO ASH

Thermally treated ash wood for flooring. The thermal treatment significantly improves the wood's durability. The wood is heated up to 215°C in top industrial kilns using only heat and steam (no chemicals).

Features:

- Class 1 durability
- Treatment uses only heat and steam (no chemicals), performed in top industrial kilns
- Wood sourced from managed forests in America and Europe
- No shrinkage or expansion
- Minimal moisture content
- Very low risk of warping, twisting, or shrinking
- Thermo Ash has a chocolate-brown color
- Naturally ages to platinum gray after installation
- Maintain the original tone with protective oil
- Natural color variations may occur
- Easy to process (cutting, installation)
- Non-toxic dust
- Low thermal conductivity (does not overheat)
- Lightweight material
- Intended Use : DECKS, POOL DECKS
- Contact us for available DIAMETER and installation!

An aerial photograph of a beach. On the left, there are several rows of red umbrellas and white chairs, likely for a beachside cafe or restaurant. The beach is sandy and extends towards the ocean. The water is a vibrant turquoise color, and white waves are breaking near the shore. The overall scene is bright and sunny.

ALUMINUM PRODUCTS

ALUMINUM UMBRELLAS

Our professional Aluminum

Umbrellas are made from high-strength special alloy aluminum, ensuring durability and long-lasting performance. The powder coating is electrostatic with polyester, providing excellent appearance and long-term protection against weather conditions.

The fabrics we use come from top European manufacturers and meet strict standards for durability, water resistance, colorfastness, opacity, and UV protection. Additionally, we offer a wide range of bases and accessories for all umbrellas.
